

# Appendices I, II and III

valid from 4 May 2023

## Interpretation

1. Species included in these Appendices are referred to:
  - a) by the name of the species; or
  - b) as being all of the species included in a higher taxon or designated part thereof.
2. The abbreviation “spp.” is used to denote all species of a higher taxon.
3. Other references to taxa higher than species are for the purposes of information or classification only. The common names included after the scientific names of families are for reference only. They are intended to indicate the species within the family concerned that are included in the Appendices. In most cases this is not all of the species within the family.
4. The following abbreviations are used for plant taxa below the level of species:
  - a) “ssp.” is used to denote subspecies; and
  - b) “var(s).” is used to denote variety (varieties).
5. As none of the species or higher taxa of FLORA included in Appendix I is annotated to the effect that its hybrids shall be treated in accordance with the provisions of Article III of the Convention, this means that artificially propagated hybrids produced from one or more of these species or taxa may be traded with a certificate of artificial propagation, and that seeds and pollen (including pollinia), cut flowers, seedling or tissue cultures obtained *in vitro* transported in sterile containers of these hybrids are not subject to the provisions of the Convention.
6. The names of the countries in parentheses placed against the names of species in Appendix III are those of the Parties submitting these species for inclusion in this Appendix.
7. When a species is included in Appendix I, II or III, the whole, live or dead, animal or plant is always included. In addition, all parts and derivatives thereof are also included in the same Appendix unless, for animal species listed in Appendix III and plant species listed in Appendix II or III, the species is annotated with the symbol # followed by a number to indicate that only specific parts and derivatives are included. The symbol # followed by a number placed against the name of a species or higher taxon included in Appendix II or III refers to a footnote that indicates the parts or derivatives of animals or plants that are designated as 'specimens' subject to the provisions of the Convention in accordance with Article I, paragraph (b), subparagraph (ii) or (iii).
8. The terms and expressions below, used in annotations in these Appendices, are defined as follows:

### Extract

*Any substance obtained directly from plant material by physical or chemical means regardless of the manufacturing process. An extract may be solid (e.g. crystals, resin, fine or coarse particles), semi-solid (e.g. gums, waxes) or liquid (e.g. solutions, tinctures, oil and essential oils).*

### Finished musical instruments

*A musical instrument (as referenced by the Harmonized System of the World Customs Organization, Chapter 92; musical instruments, parts and accessories of such articles) that is ready to play or needs only the installation of parts to make it playable. This term includes antique instruments (as defined by the Harmonized System codes 97.05 and 97.06; Works of art, collectors' pieces and antiques).*

#### Finished musical instrument accessories

*A musical instrument accessory (as referenced by the Harmonized System of the World Customs Organization, Chapter 92; musical instruments, parts and accessories of such articles) that is separate from the musical instrument, and is specifically designed or shaped to be used explicitly in association with an instrument, and that requires no further modification to be used.*

#### Finished musical instrument parts

*A part (as referenced by the Harmonized System of the World Customs Organization, Chapter 92; musical instruments, parts and accessories of such articles) of a musical instrument that is ready to install and is specifically designed and shaped to be used explicitly in association with the instrument to make it playable.*

#### Finished products packaged and ready for retail trade

*Products, shipped singly or in bulk, requiring no further processing, packaged, labelled for final use or the retail trade in a state fit for being sold to or used by the general public.*

#### Powder

*A dry, solid substance in the form of fine or coarse particles.*

#### Shipment

*Cargo transported under the terms of a single bill of lading or air waybill, irrespective of the quantity or number of containers or packages; or pieces worn, carried or included in personal baggage.*

#### Ten (10) kg per shipment

*For the term "10 kg per shipment", the 10 kg limit should be interpreted as referring to the weight of wood of each individual annotated species of genus Dalbergia or Guibourtia present in the items in the shipment. The 10 kg limit is to be assessed only against the individual weights of the portions of wood of each individual annotated species contained in each item of the shipment, and not against the total weight of the shipment. The total weights present of each individual annotated species are considered individually to determine whether a CITES permit or certificate is required for each individual annotated species, and weights of different individual annotated species are not added together for this purpose.*

#### Transformed wood

*Defined by Harmonized System code 44.09: Wood (including strips, friezes for parquet flooring, not assembled), continuously shaped (tongued, grooved, rebated, chamfered, V-jointed, beaded, moulded, rounded or the like) along any of its edges, ends or faces, whether or not planed, sanded or end-jointed.*

#### Woodchips

*Wood that has been reduced to small pieces.*

	Appendices		
	I	II	III
<b>FLORA (PLANTS)</b>			
AGAVACEAE Agaves, bear-grass			
	<i>Agave parviflora</i>	<i>Agave victoriae-reginae</i> #4 <i>Nolina interrata</i> <i>Yucca queretaroensis</i>	
AIZOACEAE Stone plants			
			<i>Conophytum</i> spp. (South Africa) <i>Mestoklema tuberosum</i> (South Africa)
AMARYLLIDACEAE Snowdrops, sternbergias			
		<i>Galanthus</i> spp. #4 <i>Sternbergia</i> spp. #4	
ANACARDIACEAE Cashews			
		<i>Operculicarya decaryi</i> <i>Operculicarya hyphaenoides</i> <i>Operculicarya pachypus</i>	
APOCYNACEAE Elephant trunks, hoodias, snakewood			
		<i>Hoodia</i> spp. #9	

#4 All parts and derivatives, except:

- seeds (including seedpods of Orchidaceae), spores and pollen (including pollinia). The exemption does not apply to seeds from Cactaceae spp. exported from Mexico, and to seeds from *Beccariophoenix madagascariensis* and *Dyopsis decaryi* exported from Madagascar;
- seedling or tissue cultures obtained *in vitro* transported in sterile containers;
- cut flowers of artificially propagated plants;
- fruits, and parts and derivatives thereof, of naturalized or artificially propagated plants of the genus *Vanilla* (Orchidaceae) and of the family Cactaceae;
- stems, flowers, and parts and derivatives thereof, of naturalized or artificially propagated plants of the genera *Opuntia* subgenus *Opuntia* and *Selenicereus* (Cactaceae);
- finished products of *Aloe ferox* and *Euphorbia antisiphilitica* packaged and ready for retail trade; and
- finished products derived from artificial propagation, packaged and ready for retail trade of cosmetics containing parts and derivatives of *Bletilla striata*, *Cynoches cooperi*, *Gastrodia elata*, *Phalaenopsis amabilis* or *Phalaenopsis lobbii*.

#9 All parts and derivatives except those bearing a label:  
 "Produced from *Hoodia* spp. material obtained through controlled harvesting and production under the terms of an agreement with the relevant CITES Management Authority of [Botswana under agreement No. BW/xxxxxx] [Namibia under agreement No. NA/xxxxxx] [South Africa under agreement No. ZA/xxxxxx]".

	Appendices		
	I	II	III
	<b><i>Pachypodium ambongense</i></b> <b><i>Pachypodium baronii</i></b> <b><i>Pachypodium decaryi</i></b> <b><i>Pachypodium windsorii</i></b>	<b><i>Pachypodium</i> spp. #4</b> (Except the species included in Appendix I)  <b><i>Rauvolfia serpentina</i> #2</b>	<b><i>Raphionacme zeyheri</i></b> (South Africa)
ARALIACEAE Ginseng		<b><i>Panax ginseng</i> #3</b> (Only the population of the Russian Federation; no other population is included in the Appendices) <b><i>Panax quinquefolius</i> #3</b>	
ARAUCARIACEAE Monkey puzzle			
	<b><i>Araucaria araucana</i></b>		
ASPARAGACEAE Beaucarnea			
		<b><i>Beaucarnea</i> spp.</b>	
BERBERIDACEAE Himalyan may-apple			
		<b><i>Podophyllum hexandrum</i> #2</b>	

#4 All parts and derivatives, except:

- seeds (including seedpods of Orchidaceae), spores and pollen (including pollinia). The exemption does not apply to seeds from Cactaceae spp. exported from Mexico, and to seeds from *Beccariophoenix madagascariensis* and *Dypsis decaryi* exported from Madagascar;
- seedling or tissue cultures obtained *in vitro* transported in sterile containers;
- cut flowers of artificially propagated plants;
- fruits, and parts and derivatives thereof, of naturalized or artificially propagated plants of the genus *Vanilla* (Orchidaceae) and of the family Cactaceae;
- stems, flowers, and parts and derivatives thereof, of naturalized or artificially propagated plants of the genera *Opuntia* subgenus *Opuntia* and *Selenicereus* (Cactaceae);
- finished products of *Aloe ferox* and *Euphorbia antisyphilitica* packaged and ready for retail trade; and
- finished products derived from artificial propagation, packaged and ready for retail trade of cosmetics containing parts and derivatives of *Bletilla striata*, *Cynoches cooperi*, *Gastrodia elata*, *Phalaenopsis amabilis* or *Phalaenopsis lobbii*.

#2 All parts and derivatives except:

- seeds and pollen; and
- finished products packaged and ready for retail trade.

#3 Whole and sliced roots and parts of roots, excluding manufactured parts or derivatives, such as powders, pills, extracts, tonics, teas and confectionery.

	Appendices		
	I	II	III
BIGNONIACEAE Trumpet trees		<p><b><i>Handroanthus</i> spp.</b><sup>#17</sup> &lt;Entry into effect delayed by 24 months, i.e. until 25 November 2024&gt;</p> <p><b><i>Roseodendron</i> spp.</b><sup>#17</sup> &lt;Entry into effect delayed by 24 months, i.e. until 25 November 2024&gt;</p> <p><b><i>Tabebuia</i> spp.</b><sup>#17</sup> &lt;Entry into effect delayed by 24 months, i.e. until 25 November 2024&gt;</p>	
BROMELIACEAE Tillandsias		<p><b><i>Tillandsia harrisii</i></b><sup>#4</sup></p> <p><b><i>Tillandsia kammii</i></b><sup>#4</sup></p> <p><b><i>Tillandsia xerographica</i></b><sup>#4</sup></p>	

<sup>#17</sup> Logs, sawn wood, veneer sheets, plywood and transformed wood.

<sup>#4</sup> All parts and derivatives, except:

- seeds (including seedpods of Orchidaceae), spores and pollen (including pollinia). The exemption does not apply to seeds from Cactaceae spp. exported from Mexico, and to seeds from *Beccariophoenix madagascariensis* and *Dypsis decaryi* exported from Madagascar;
- seedling or tissue cultures obtained *in vitro* transported in sterile containers;
- cut flowers of artificially propagated plants;
- fruits, and parts and derivatives thereof, of naturalized or artificially propagated plants of the genus *Vanilla* (Orchidaceae) and of the family Cactaceae;
- stems, flowers, and parts and derivatives thereof, of naturalized or artificially propagated plants of the genera *Opuntia* subgenus *Opuntia* and *Selenicereus* (Cactaceae);
- finished products of *Aloe ferox* and *Euphorbia antisyphilitica* packaged and ready for retail trade; and
- finished products derived from artificial propagation, packaged and ready for retail trade of cosmetics containing parts and derivatives of *Bletilla striata*, *Cycnoches cooperi*, *Gastrodia elata*, *Phalaenopsis amabilis* or *Phalaenopsis lobbii*.

	Appendices II		
CACTACEAE Cacti	I	II	III
	<p><b>Ariocarpus spp.</b>  <b>Astrophytum asterias</b>  <b>Aztekium ritteri</b>  <b>Coryphantha werdermannii</b>  <b>Discocactus spp.</b>  <b>Echinocereus ferreiranus</b>  <b>ssp. lindsayorum</b>  <b>Echinocereus schmollii</b>  <b>Escobaria minima</b>  <b>Escobaria sneedii</b>  <b>Mammillaria pectinifera</b> {Includes  <b>ssp. solisioides}</b>  <b>Melocactus conoideus</b>  <b>Melocactus deinacanthus</b></p>	<p><b>CACTACEAE spp.</b><sup>P1 #4</sup> (Except the species included in Appendix I and <i>Pereskia</i> spp., <i>Peresklopsis</i> spp. and <i>Quiabentia</i> spp. which are not included in the Appendices)</p>	

<sup>P1</sup> Artificially propagated specimens of the following hybrids and/or cultivars are not subject to the provisions of the Convention:

- *Hatiora x graeseri*
- *Schlumbergera x buckleyi*
- *Schlumbergera russelliana x Schlumbergera truncata*
- *Schlumbergera orssichiana x Schlumbergera truncata*
- *Schlumbergera opuntioides x Schlumbergera truncata*
- *Schlumbergera truncata* (cultivars)
- Cactaceae spp. colour mutants grafted on the following grafting stocks: *Harrisia* 'Jusbertii', *Hylocereus trigonus* or *Hylocereus undatus*
- *Opuntia microdasys* (cultivars).

<sup>#4</sup> All parts and derivatives, except:

- a) seeds (including seedpods of Orchidaceae), spores and pollen (including pollinia). The exemption does not apply to seeds from Cactaceae spp. exported from Mexico, and to seeds from *Beccariophoenix madagascariensis* and *Dypsis decaryi* exported from Madagascar;
- b) seedling or tissue cultures obtained *in vitro* transported in sterile containers;
- c) cut flowers of artificially propagated plants;
- d) fruits, and parts and derivatives thereof, of naturalized or artificially propagated plants of the genus *Vanilla* (Orchidaceae) and of the family Cactaceae;
- e) stems, flowers, and parts and derivatives thereof, of naturalized or artificially propagated plants of the genera *Opuntia* subgenus *Opuntia* and *Selenicereus* (Cactaceae);
- f) finished products of *Aloe ferox* and *Euphorbia antisyphilitica* packaged and ready for retail trade; and
- g) finished products derived from artificial propagation, packaged and ready for retail trade of cosmetics containing parts and derivatives of *Bletilla striata*, *Cynoches cooperi*, *Gastrodia elata*, *Phalaenopsis amabilis* or *Phalaenopsis lobbii*.

		<b><i>Swietenia humilis</i></b> <sup>#4</sup> <b><i>Swietenia macrophylla</i></b> <sup>#6</sup> (Only the populations of the Neotropics; no other population is included in the Appendices) <b><i>Swietenia mahagoni</i></b> <sup>#5</sup>	
NEPENTHACEAE Pitcher-plants (Old World)			
	<b><i>Nepenthes khasiana</i></b> <b><i>Nepenthes rajah</i></b>	<b><i>Nepenthes</i> spp.</b> <sup>#4</sup> (Except the species included in Appendix I)	
OLEACEAE Machurian ash			
			<b><i>Fraxinus mandshurica</i></b> <sup>#5</sup> (Russian Federation)

<sup>#4</sup> All parts and derivatives, except:

- a) seeds (including seedpods of Orchidaceae), spores and pollen (including pollinia). The exemption does not apply to seeds from Cactaceae spp. exported from Mexico, and to seeds from *Beccariophoenix madagascariensis* and *Dyopsis decaryi* exported from Madagascar;
- b) seedling or tissue cultures obtained *in vitro* transported in sterile containers;
- c) cut flowers of artificially propagated plants;
- d) fruits, and parts and derivatives thereof, of naturalized or artificially propagated plants of the genus *Vanilla* (Orchidaceae) and of the family Cactaceae;
- e) stems, flowers, and parts and derivatives thereof, of naturalized or artificially propagated plants of the genera *Opuntia* subgenus *Opuntia* and *Selenicereus* (Cactaceae);
- f) finished products of *Aloe ferox* and *Euphorbia antisyphilitica* packaged and ready for retail trade; and
- g) finished products derived from artificial propagation, packaged and ready for retail trade of cosmetics containing parts and derivatives of *Bletilla striata*, *Cynoches cooperi*, *Gastrodia elata*, *Phalaenopsis amabilis* or *Phalaenopsis lobbii*.

<sup>#6</sup> Logs, sawn wood, veneer sheets and plywood.

<sup>#5</sup> Logs, sawn wood and veneer sheets.

		<b><i>Cistanche deserticola</i></b> <sup>#4</sup>	
PALMAE (ARECACEAE) Palms			
		<b><i>Beccariophoenix madagascariensis</i></b> <sup>#4</sup> <b><i>Dypsis decaryi</i></b> <sup>#4</sup>	

- <sup>P3</sup> Artificially propagated hybrids of the following genera are not subject to the provisions of the Convention, if conditions, as indicated under a) and b), are met: *Cymbidium*, *Dendrobium*, *Phalaenopsis* and *Vanda*:
- Specimens are readily recognizable as artificially propagated and do not show any signs of having been collected in the wild such as mechanical damage or strong dehydration resulting from collection, irregular growth and heterogeneous size and shape within a taxon and shipment, algae or other epiphyllous organisms adhering to leaves, or damage by insects or other pests; and
  - when shipped in non-flowering state, the specimens must be traded in shipments consisting of individual containers (such as cartons, boxes, crates or individual shelves of CC-containers) each containing 20 or more plants of the same hybrid; the plants within each container must exhibit a high degree of uniformity and healthiness; and the shipment must be accompanied by documentation, such as an invoice, which clearly states the number of plants of each hybrid; or
    - when shipped in flowering state, with at least one fully open flower per specimen, no minimum number of specimens per shipment is required but specimens must be professionally processed for commercial retail sale, e.g. labelled with printed labels or packaged with printed packages indicating the name of the hybrid and the country of final processing. This should be clearly visible and allow easy verification.

Plants not clearly qualifying for the exemption must be accompanied by appropriate CITES documents.

<sup>#4</sup> All parts and derivatives, except:

- seeds (including seedpods of Orchidaceae), spores and pollen (including pollinia). The exemption does not apply to seeds from Cactaceae spp. exported from Mexico, and to seeds from *Beccariophoenix madagascariensis* and *Dypsis decaryi* exported from Madagascar;
- seedling or tissue cultures obtained *in vitro* transported in sterile containers;
- cut flowers of artificially propagated plants;
- fruits, and parts and derivatives thereof, of naturalized or artificially propagated plants of the genus *Vanilla* (Orchidaceae) and of the family Cactaceae;
- stems, flowers, and parts and derivatives thereof, of naturalized or artificially propagated plants of the genera *Opuntia* subgenus *Opuntia* and *Selenicereus* (Cactaceae);
- finished products of *Aloe ferox* and *Euphorbia antisyphilitica* packaged and ready for retail trade; and
- finished products derived from artificial propagation, packaged and ready for retail trade of cosmetics containing parts and derivatives of *Bletilla striata*, *Cynoches cooperi*, *Gastrodia elata*, *Phalaenopsis amabilis* or *Phalaenopsis lobbii*.

<sup>P4</sup> Seedling or tissue cultures obtained *in vitro* and transported in sterile containers are not subject to the provisions of the Convention only if the specimens meet the definition of 'artificially propagated' agreed by the Conference of the Parties.
